

ARMSTRONG

Armstrong has become one of the best high production glasses on the market available in many rich colors and combinations. Because it is machine rolled, it is very uniform in thickness with an attractive smooth surface for outstanding cutability. Sheet size measures 32" x 36" (8.0 sq. ft.). Factory case contains 60 sheets (480 sq. ft.).

BULLSEYE

Characterized by a tightly mottled quality of transmission known as "Catspaw", Bullseye offers an excellent selection of hand-rolled opalessents and cathedrals in many colors and textures. Sold by the pound. Sheet size measures approximately 20" x 32" (4.5 sq. ft.) or approximately 7.5 lbs. for the 3mm standard thickness glass and approximately 16" x 20" (2.22 sq. ft.) or approximately 2.5 lbs. for the 1.5mm thins. Two smooth textures are available, the standard (-00) is the traditional undulating surface known as single rolled, double rolled (-30) is a flatter smoother texture developed for fusing work to produce less air between glasses. For other fusing items see the "HOT GLASS" section of this catalog. Iridescent colors are only available in (-31) Dbl. Roll. All forms of machine rolled TEKTA are sold by the sqft.

CODING SYSTEM

Each style of Bullseye glass bears a 6-digit code number. The first 4 digits indicate the base glass:

0XXX SOLID OPAL

1XXX TRANSPARENT CATHEDRALS

2XXX 2-COLOR STREAKY

3XXX 3-COLOR STREAKY

4XXX FRACTURE &/or STREAMER

The second 2 digits indicate surface treatment, profile, thickness (if no digits are given -00 is assumed):

-00 Single Rolled 3mm

-31 Double Rolled Irid

-46 3mm Accordion Irid

-54 1.6mm Reeded Irid

-12 w/ Patterned Irid

-37 dbl.Rolled W/Silver Irid

-47 3mm Prismatic

-55 1.6mm Accordion

-21 Soft Ripple

-38 Dbl. Rolled w/Gold Irid

BULLSEYE

TRANSPARENT CATHEDRALS & IRIDESCENT 3MM & 1.6MM

The subtle texture of Bullseye's cathedrals makes them a good choice for applications where maximum light but minimum visibility is desired. The 1400 series of light tints offers an exciting range of possibilities both to the fuser working with color layering and to the designer looking for cathedrals coordinated to contemporary pastel color schemes. Tested compatible (00F) are single rolled, or (30F) double rolled. (31F) are double rolled iridescent (50F) are 1.6mm and (51F) are 1.6mm Iridescent. **PRICE CODE M/P MEANS MARKET PRICE.**

BULLSEYE

SOLID COLOR OPALESCENTS

Bullseye's opalescent glasses are characterized by a tightly mottled quality of transmission known as "Catspaw". Slight variations in shade and density are evidence of the unique handcast nature of production and impart a vitality to this glass unequalled by machine rolled products. **M/P=MARKET PRICE.**

Catalog # B-8359
Class Pack

Just the right assortment for your next fusing workshop-this colorful mix of fusible Bullseye transparent, opalescent, irides, thins and new collage glasses has been carefully selected to offer your students an exciting choice in the proportions we've found most advantageous for class usage. Each 9" x 12" piece of glass is individually labeled for your easy reference. The 16- page mini-catalog of "Glass for kiln work" which accompanies each case offers educational information and tips for fusing with Bullseye glass.

Contains Approximately 45lb of Tested Compatible Bullseye glass. Each pack contains approximately 45 pieces (10" x 10") or 38 pieces (5" x 10") and 25 pieces (10" x 10"). A colorful tested Compatible banner that fits easily atop the box to call attention to this snappy little display.

Outside dimensions: 11³/₄" H x 10¹/₂" L x 11¹/₄" W.

Shipping dimensions: 13"H x 13¹/₂" L x 14"W Weight: About 50 lbs.

Catalog # B-8360
Lamp Pack

Light up your lamp classes with this classy collection!
A treasure chest for lamp makers, and retailers. Open this little crate in your next lamp class: watch your students learn to love a quality art glass. Solid and streaky opalescent with the characteristic Bullseye "Catspaw" glow. Ring mottles and fracture-streamers for naturalistic floral and leaf representations. Iridescent for subtle satin glints. Each pack has a good selection of flower, leaf and background glasses. Every 9" x 12" piece of glass is individually labeled for your easy reference. The 12-page mini-catalog which accompanies each case offers technical tips, manufacturing information, design suggestions and more.

Approximately 45lbs of Bullseye's glass selected especially for lamp usage. Each pack contains approximately 45 pieces (10" x 10") or 38 pieces (5" x 10") and 25 pieces (10" x 10")

Catalog # B-8361
Panel Pack

Irresistible colors and textures to enhance the home !
Stained glass window panels add warmth and interest to home. Inspire your students with real art glass by opening this little crate at your next stained glass class. They can select from a pleasing assortment of glasses: Lively catspaw opalescent, shimmering iridescent, vivid jeweltone cathedrals, daring fractures and pale transparent with our subtle hand-rolled texture. Every 9" x 12" piece of glass is individually labeled for your easy reference. The 12- page mini-catalog which accompanies each case offers technical tips, manufacturing information, design suggestion and more.

Approximately 45 lbs of Bullseye glass selected for panel usage . Each pack contains approximately 45 pieces (10" x 10") or 38 pieces (5" x 10") and 25 pieces (10" x 10")

Catalog # B-8363
Mosaic Pack

Irresistible colors and textures to enhance the home !
Emphasizing bright opals and nature -inspired colors. Streakies, ring mottles and irids may be included for added variety. The 12-page mini-catalog which accompanies each case offers technical tips, manufacturing information, design suggestion and more.

Approximately 45lbs of Bullseye's glass selected. Each pack contains approximately 45 pieces (10" x 10") or 38 pieces (5" x 10") and 25 pieces (10" x 10")

SPECTRUM

Spectrum Glass is this country's largest colored glass manufacturer. Their continuous roll method of production is unique and enables them to make large consistent batches of glass at very competitive prices. Sheet size is 24" x 48" (8 sq. ft.) except for Colored Waterglass which is 20" x 48" (6.7 sq. ft.) Factory case quantity is 464sq. ft. except for Waterglass which is 346 sq. ft. and Ripple which is 320 sqft.

RACK PACKS

Catalog # S-RP

A variety box of 12" x 12" sheets. Each one contains 80 sheets of glass, in 12-16 different colors, with no more than five sheets of any one color. At least 25% of the glass is premium-price product, including Hot Colors, Iridescent, Gold Pinks, Waterglass and Baroque. Both standard and T-glass are included.

SAMPLES

Catalog Number	Colors - Description
S-SAM	Spectrum Sample Set Standard
S-SAM-M	Master Sample Set

Master Sample sets will contain samples of every current Spectrum product (today about 225 pieces).

Standard Sample sets will contain samples of every color and every color-mix, and examples of every texture but not every color in every texture like the Master Sample Set. All textures of clear will be in the set along with a texture reference chart which will help identify textures available by color. This set has about 145 pieces at this time.

KOKOMO

Kokomo Opalescent Glass Co. has been manufacturing art glass since 1888, producing an easy cutting glass with a diverse range of colors, densities and textures in clear and opalescent glass. Sheet size is 32" x 32" (7.11 sq.ft.).

Explanation of Density Codes

Example: The number 11 (amber and opal) refers to the color of glass while the following letters refer to the color density.

11D	Very dense (diffuses light)
11MD	Medium dense (limited light transmission)
11	Medium (most common density)
11ML	Medium light (considerable light transmission)
11L	Light (wispy, nearly translucent)
11LL	Streaky

GLUE CHIP

Glue Chip is created by sandblasting one surface and coated it with hot animal hide glue. When the glue dries, it naturally chips away, leaving a fern or feathered pattern. Double chip has a tighter pattern. KS and KD sheet size is 24" x 36". 3CSGC and 3CDGC sheet size is 48" x 84". All colored chip is 25" x 42". All glue chip is 1/8" except 6CSG and 6CDGC, which are 1/4" and sheet size is 48" x 96"

YOUGHIOGHENY GLASS

Youghiogheny Stipple Glass is a true Tiffany representational lamp glass made with the same quality as Tiffany Glass. Stipple Glass has a very unique visual quality, diffusing light so that the hot spot, where the bulb is behind the glass, is almost unnoticeable. Because of the translucent quality of stipple glass, there is a three dimensional effect when other colors are streaked through the glass. In the manufacturing of stipple glass, colors added appear to tear raggedly through the glass rather than bleed and become muddy as in the case of traditional fluorine glasses.
